

Teaching is your

Teach about nature

Lesson Plans

Free lesson plans for all grade levels

Download - Get a copy of the lesson plans online at epa.guam.gov.

Tie into content standards and Earth Day 2012 activities

Complete - Each lesson plan has a connection to the Earth Day themes and activities in April.

Lessons connect local plants, animals and ecosystems with learning

Local content - Each lesson plan is designed with a local connection in mind.

School to home connection

Contests and activities
Lesson plans are supported by ongoing Earth Day contests and activities offered throughout the month.

Guest Speakers

Presenters about any environmental subject

Listing - Visit epa.guam.gov for a complete listing of professionals that can speak in your classroom about the lesson plans connecting to Earth Day.

Interactive and fun speakers

Trained - Each presenter has years of experience presenting in classrooms making lessons exciting

Personalized for your class and lesson

Specific - When you arrange a presenter, they will work with you to give a lesson that matches your classroom.

Field Trip Connection

Match your lesson and field trip easily!

Tours - Jungle, the beach, water treatment, trash processing, laboratories! There are many fun and educational field trip options out there. Check out our entire listing at epa.guam.gov.

Tour guides available

Take a guide - We also offer professionals that will accompany your field trip to make the connection between the trip and your classroom.
